My dear Robert,

It was a joy to read out your letter (poem) to Baba. I also read out to Him your letter to me.

Baba directs me to let you know that your love has touched Him and made Him very happy and proud of you. He wants you to continue to do good to others by carrying out His instructions given to you. He is happy you will soon be on your old job and serving your dear patients by sharing with them His love that you have received. Above all, Baba wants you to take great care of your own health. He wants you to keep fit to do His work and to give His love to all whom you meet — those who are eager to receive His love.

Baba wants me to let you know that He knows how you long to love and serve Him and to please Him. He is happy

with your love. He says that although He is so vast, infinite and unfathomable, yet a pure and tender heart of His lover can contain Him and find Him within! He sends His love and blessing to you and to Rick and Allen.

Baba wants you to convey to Rick and Allen that their love reaches Him and makes Him happy.

Your letter was shared by the Moudaki and a copy of it has been forwarded to Nariman-Anavay Dadaachaji; they will feel happy to share the contents of your letter.

I am sure you will not forget to send me a copy of the account of your exclusive "Sahas" with Baba. Please do write the account when you find time to do so.

Your dear parents and your dear sister must have been overjoyed to find you among them at home on your birthday. Veritably it was your "first" birthday in Baba's love! We often remember you with fond memories of your stay at Ukerangad. I wish you a long life of ever increasing joy in the love and Service of Baba — The Ancient One! Much love Eruch
